The Director updated the Board on the CENIC project saying that another broadband bid came in at a substantially lower price than the first. CENIC will be sending a contract so we can proceed with the program. We will have to pay for non-recurring costs like drilling into the building and purchasing the routers and firewalls, but there is a grant available to help with those costs also. The contract will be for a five-year period.

The Director said she will attend the Directors Forum in Ontario, CA on March 4 and 5.

Trustee Ganer asked if CSDA’s Harassment Prevention training webinar would be archived to view as an on-demand webinar. The Director said the webinar was not available from CSDA in that format.

The Director said that our current scanners are not capable of reading the barcodes; but when new scanners are purchased in the future this may be a added feature. Circulation Department Supervisor Caroline Wilkins added that staff has received very few requests for this service so far.

The Director said that she is currently researching which emails should be disposed of or retained. At some point in the future, this may be added to the Record Retention Policy. For now, no changes are recommended.

c) Annual Review of the Record Retention Schedule

Since this was only a review of the Record Retention Schedule and no changes were being suggested, a Motion was unnecessary.

Trustee Salehi asked what the oldest record in our files is. The Director said that papers from the Library’s inception are probably the oldest. In addition, there are records noted on the Schedule that must be kept permanently. He asked if the records used a lot of space and the Director responded that the files are manageable and stored in the Administrative Offices.
